# Getting Started

This knowledge base runs on *DokuWiki* with **Markdown syntax enabled**.

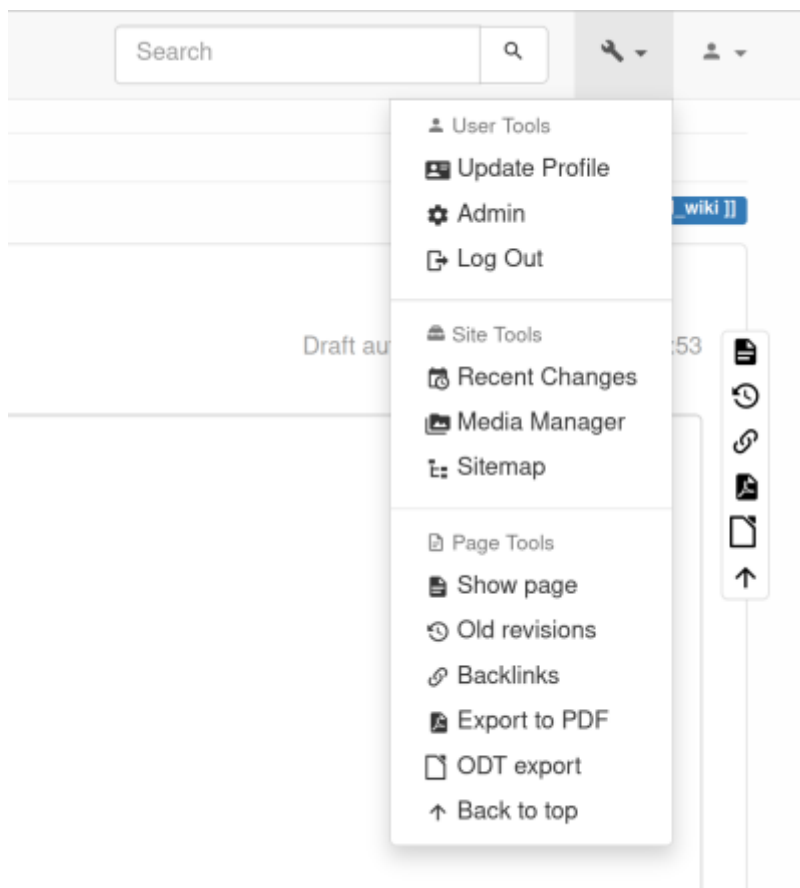

- By default, all areas except `/public` and `/wiki` are private.
- Access is granted by administrators to specific areas of the Wiki. Whenever you need access to new wiki sections, contact **afeijoo@odins.es** or **jsanchez@odins.es**.
- Broadly speaking, pages and media are structured in folders and sub-folders.

### Use the Search Bar!

The search bar at the top of this page is quite powerful. We encourage you to use it instead of wasting time browsing the site tree.

### Navigate

On the left hand side of the Wiki you have the sidebar, showing the site-tree with all the folders and pages you have access to. You can also use `Sitemap` on the top-right hand drop-down menu to get a bigger version on the tree.

### Create a new page

New pages are created specifying the new URI of the resource -e.g. `https://wiki.odins.es/public/development/new_page`. Once we enter the URI on our browser we are prompted with the following message:

## This topic does not exist yet [↗](#)

You've followed a link to a topic that doesn't exist yet. If permissions allow, you may create it by clicking on [Create this page](#).

We click on the **pencil symbol** on the right hand side menu to start editing the page and write whatever we want. The page will be created after saving.

### Edit the page

Do not worry about using Markdown. The page editor has a toolbar just like MS Word to edit the text, create tables, bullet lists, etc.

Edit the page and hit [Save](#). See [syntax](#) for Wiki syntax. Please edit the page only if you can **improve** it. If you want to test some things, learn to make your first steps on the [playground](#).

created  Minor Changes ↩ ↪ ↴ ↵

### Advanced features

If it's your first time using DokuWiki, please check the [DokuWiki foler](#) to learn Dokuwiki advanced features.

**Access to Media files** such as images or PDFs behaves exactly the same way as regular pages. You'll only access those files if you were given permissions.
