Getting Started

This knowledge base runs on *DokuWiki* with **Markdown syntax enabled**.

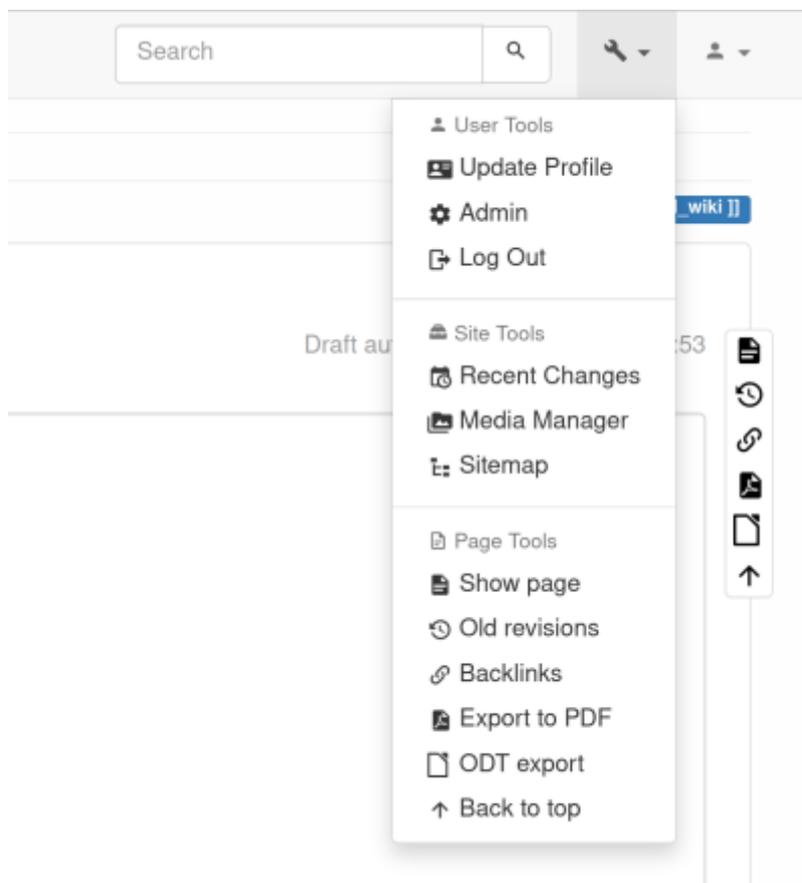

- By default, all areas except `/public` and `/wiki` are private.
- Access is granted by administrators to specific areas of the Wiki. Whenever you need access to new wiki sections, contact **afeijoo@odins.es** or **jsanchez@odins.es**.
- Broadly speaking, pages and media are structured in folders and sub-folders.

Use the Search Bar!

The search bar at the top of this page is quite powerful. We encourage you to use it instead of wasting time browsing the site tree.

Navigate

On the left hand side of the Wiki you have the sidebar, showing the site-tree with all the folders and pages you have access to. You can also use `Sitemap` on the top-right hand drop-down menu to get a bigger version on the tree.

Create a new page

New pages are created specifying the new URI of the resource -e.g. `https://wiki.odins.es/public/development/new_page`. Once we enter the URI on our browser we are prompted with the following message:
