Getting Started

This knowledge base runs on *Wiki.js*.

- By default, all areas except `/public` are private.
- Access is granted by administrators to specific areas of the Wiki. Whenever you need access to new wiki sections, contact support.
- Broadly speaking, pages and media are structured in folders and sub-folders.

If it's your first time using Wiki.js, please check the Wiki.js User Guide.

Access to Media files such as images or PDFs behaves exactly the same way as regular pages. You'll only access those files if you were given permissions.

Playground

If there is something that you want to try before editing a page, you can go to /playground and experiment without worries.
